# **Mission Journeys Summaries**

**(2013 - 2024)**

[www.harambeecares.org](http://www.harambeecares.org)

Greetings to all current and future Friends of Harambee International Development!

Harambee International Development (HID), is an Alexandria, Virginia non-profit organization dedicated to providing humanitarian assistance around the world. HID continues to seek to provide comprehensive supportive services to aid those in need in the African Diaspora. See the following services HID has provided in calendar years 2009 to 2024 below:

- Dug seven water wells to aid water resource development
- Sanitation support resources
- Hygiene and medical sensitivity training
- Leadership development classes
- Agricultural community development
- Micro-lending/economic development funding and classes
- Scholarships to attend school and senior citizen support

As Executive Director of Harambee International Development, HID submits the following pages as a pictorial review of our past, current and future work in Uganda, Brazil, St. Kitts, South Africa and Ghana.

- A. First, HID will continue our efforts in St. Kitts and Nevis to aid senior living facilities, school supplies, hospital, prison support and evangelistic effort through Resurrection and Life Church.
- B. Second, HID continued efforts in Brazil as well as South Africa to aid Jehovah Jirah Orphanage, Impilo Child Protection and Adoption Services, medical clinics and spiritual development classes through Life Centre Church.

- C. Third, HID will continue its effort in Uganda to drill water wells, feed thousands of Ugandans in need, provided leadership training, ministerial training, develop a number of small businesses and partner with Life Renewal Church on new ministry projects. In calendar years 2017-2024, HID in Uganda trained over 500 women in Women Leadership Conferences. In 2020 to present, HID has supported the Uganda Girls Support Projects for personal hygiene assistance for girls and girls subsistence gardening items to aid their education.
- D. Finally, in calendar years 2022 and 2024, HID has focused on developing support to schools in Ghana. HID in partnership with the Tutu Foundation will develop water sanitation and educational programs in Ghana.

Please go to our website at [www.harambeecares.org](http://www.harambeecares.org) or give me a call at (571) 216-2762 or email me at [dross77@gmail.com](mailto:dross77@gmail.com), if you have any questions.

Respectfully yours,

Danny Ross

Executive Director

Harambee International Development
